Delivering solutions.

DB Schenker **License Management**.
Efficient and transparent **compliance** made easy.

DB Schenker's License Management Solution (LMS) is designed to make compliance easier by tracking and managing your licenses in one place, with increased transparency and maximum cost savings. With years of trade advisory experience, our LMS provides an efficient, streamlined, and centralized solution for accounting of company licenses from application to expiration, regardless of government authority, and provides recording capabilities and full audit trails.

SOLUTIONS AT A GLANCE

❚ *Centralized license management*
❚ *Visibility & reporting functionality*
❚ *Customized reporting, alerts & notifications*
❚ *Secure data features*
❚ *Data tracking & audit trails*

The DB Schenker License Management Solution trade tool offers different options based on your needs:

❚ Helps you maintain your licenses from the start of the application to the authorization, giving you time and visibility to be in constant compliance.
❚ With 24/7 online access, and a wide range of customizable automated notifications, you can guard against tendering cargo without a valid license
❚ Customizable reporting capabilities allow you to easily review current status reports, search the history, and quickly find other critical information.
❚ Streamline data entry by automatically populating data in conjunction with D-Trade and SNAP-R.

Customer benefits

❚ Keep everything in one place – including hardware and tech data licenses, exceptions, and exemptions.
❚ Easier data entry and better compliance.
❚ Protect your bottom line and potentially avoid delays, fines, even the loss of export privileges.
❚ Robust reporting capabilities to easily provide up-to-date status reports, search history, and other important information.
❚ Covers multiple jurisdictions and allows visibility from anywhere with a web browser.

Why DB Schenker?

❚ Single-source comprehensive risk management & transportation compliance solutions from a global leader
❚ Experienced and trained compliance professionals
❚ Global resources, local support
❚ Integration and support with a wide variety of logistics and trade solutions
